THE CHARLEROI MAIL

VOLUME XX—NO. 100 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, WEDNESDAY, OCTOBER 1, 1919. TWO CENTS

STEVENSON TO ERECT A MODERN BAKERY ON WASHINGTON AVENUE

New Structure Will Be Located at Corner of Second St.

BUSINESS NEEDS MORE ROOM

James Stevenson, the Fallowfield avenue baker, has consummated a deal whereby he secures title to a lot at the corner of Washington avenue and Second street, measuring 100 feet on the avenue and 40 feet on Second street. The property was conveyed by Paul J. Jacubek, who owns a blacksmith shop on Second street, and is practically unoccupied except for an old stable which stands on one end of the lot.

It is the purpose of Mr. Stevenson to improve the property with a modern and up-to-date bakery, construction on which will begin just as soon as the necessary plans and specifications can be prepared and the contract awarded. The building which will be a two-story structure of brick or tile, with a basement under the whole structure. will occupy all of the lot and will be erected for the purpose of providing the owner with a first-class bakery

At the present time Mr. Stevenson is greatly hampered for room at his Fallowfield avenue plant. every inch of space of his present building being utilized for his bakery, storage room and confectionery. By the erection of the new building he will be able to increase his output of bread and rolls three-fold, thus reserving his present plant for pastry and fancy baked goods, as well as ice cream It would also allow him to increase the size of his store room, which at present is inadequate to accommodate the growing trade of this firm, and particulary on Saturday nights.

It is Mr. Stevenson's purpose to erect two baking ovens in the new building, and will move a considerable quantity of machinery from the present plant to the new one when everything is in readiness.

At the new building provisions will also be made for a garage for his many delivery trucks, where they cannot only be stored. but repaired as well, a feature which will make it very convenient as well more economical in the handling of goods.

The location is a particularly choice one for a bakery, being situated at a point where the improved road system can be reached in a very few minutes by any of his trucks.

The growing state of the business which Mr. Stevenson has established in Charleroi made it imperative that he increase his facilities and he was fortunate enough to secure the location noted above.

Mrs. Hannah Cooper and sister Mrs. Christena Reed have returned home after a two weeks' visit with relatives in Washington.

Coming to the Coyle Theatre "The Brat," featuring Nazimova. 99-t5

LOCAL MAN HAS A TALL STALK OF CORN

Domineck Issi of Charleroi, claims to have the champion stock of corn so far as height and bearing is concerned. He has one stalk that measures 14 feet 11 inches in height and which b ears three ears of corn. The stalk, according to Domineck, is still growing.

Miss Frances Brunner, formerly of Charleroi, and Lawrence Acton of Monongahela were united in marriage on Saturday September 27.

DEEDS CALL FOR BIG COAL ACREAGE

A deed was filed for record in the Recorder's office at Washington on Monday. wherein Samuel N Sapper and wife of German township, Fayette county. Thomas S. Collier and wife of Uniontown. and Allen and Samuel N. Sapper, executors of Leonard Sapper, convey to the Ontario Gas Coal Company, 13 tracts of the Pittsburg or river vein of coal at a consideration of $350,000.

The coal includes the following all of which is located in West Bethlehem township: Samue Kinder tract, 122 075 acres; James H. Roberts tract. 120.81 acres; Demas Wonsetler tract, 120 acres and 70.25 perches; Hannah M. Wherry tract. 22 acres and 116 perches; Jacob Myers tract, 18 acres and 92 perches; T M. Ross tract. 135 acres and 131 perches; Eva J. Powell tract, 65.425 acres; William C. Wise tract 14.606 acres; John D Amos tract one half of all coal, 60.68 acres; Jesse Nicholls tract. one half of all the coal, 52 acres and 126.695 acres: Miche Mancha tract, 120,526 acres; James H Keys tract. 81 404 acres and the Ard M. Hosack tract 78 acres and 55 31 perches.

The Ontario Gas Coa Company also files a mortgage in the sum of $1,000,000 in favor of the ePople's Savings & Trust Co., of Pittsburg to secure bonds issued by the company.

MANY FOREIGNERS RETURNING HOME

As a result of the strike many Donora foreigners who had planned to take their savings back to Europe, are now leaving that community. One office alone has had applications for thirty passports within the past week. Many of these foreigners fear that they will not again be given employment in the mills, and say it is a waste of time and their savings to remain longer here. It is said there and several foreigners in Donora who have saved from $5.000 to $10 000 from their earnings in the past few years.

A Pie Social will be held Wednesday evening in I. O. O. F. Hall by the Protected Home Circlee. 99-t2*

War-time Prohibition Ban Has Not Yet Been Lifted

The ban on booze will not be lifted until the peace treaty has been ratified. Just when that will be is a matter of speculation. On Tuesday it was announced by the war department "the accident of war and the progress of demobilization are at an end," and it was assumed by many that war-time prohibition would automatically end. A "flash" was sent over the wires to that effect, and the rumor spread that saloons would once more be open beginning with the first of the month.

However, all doubts were set at rest by a statement issued by Attorney General Palmer, who said that his "interpretation of the act is that not only must demobilization be terminated, but the war must come to a legal conclusion, and the war is not concluded until the peace treaty is ratified."

It is estimated that had the ban been lifted by the President with the beginning of October that at least 10,000,000 gallons of whiskey would have been released in the Pittsburg district alone, and that a large amount of it, if not all, would have been disposed of before the beginning of national prohibition next January.

The ban must be lifted by President Wilson before it will be legal to sell any intoxicating beverages, and according to Attorney General Palmer the treaty must be ratified first. It may take several weeks yet before the Senate is ready to take a final vote on the measure, and it is possible that national prohibition will be in effect before the treaty is finally disposed of.

COUNTY ORGANIZES FOR JEWISH RELIEF

Washington county has organized for the Jewish War Relief Drive, October 6th. with John L. Stewart, Chairman. Louis Ochs. Vice Chairman. A. L. Phillips, Treasurer. and Emil Caiman, Secretary and the following committee: Robert Abel, Frank H. Berthal; J. D. Bigger; W. J. Burns; Chas. E. Caldwell; Alex Cohen; Lawrence Gideon; Samuel M. Day; Rev. J. Goldfarb; Henry Grossman; Charles Gessner; Rudolph Hanau; Rev. M. J. Hughes; Harry A. Jones; Morris Marcus; Richard G. Miller; Hon. J. A. McIlvaine; J. B. McMurray; Robert McCarrell; [illegible]; T. J. O'Rourke; R. A. S. Pollock; Ben Reynolds; Rev W. E. Slemmons; Patrick Yorke.

SITUATION ONE TO CONSIDER SERIOUSLY

Notwithstanding the fact that nearly everybody in Monessen has quit work and is living on what has been earned, peace. good order and extreme quiet prevail. Since the attempt of Donora men to march into that town against the proclamation of the burgess. there has been scarcely a stir.

But sensible men realize this condition cannot remain always. with perhaps 7,000 to 8,000 men not producing anything. their families and more than 4,500 children of school age eating and wearing out clothes and shoes. All are beginning to consider seriously that at least a half million dollars in wages has been lost to Monessen people already by the two weeks' stoppage, which cannot be made up, but other wages may be earned.

NATURALIZATION COURT OCT. 8 AND 9

Naturalization hearings were held in the Washington county courts on Monday before Judge John A. McIlvaine. Examiner C. A. Bernhard of Pittsburg was present. On October 8 and 9 Mr. Bernhard will be at Washington for the sole purpose of examining soldiers with a view of granting them citizenship. Soldiers who are not naturalized are urged to remember these dates. They will be required to have two witnesses and their discharge papers. Among those who were granted naturalization papers Monday was Charles Collinet, of Charleroi, a native of France.

EXTRA SHIFTS ON THE DONORA ROAD

With an additional crew of men working from the Donora end of the improved road between that borough and Monongahela. and another shift coming rapidly up the valley, it is expected that the long delayed concrete boulevard between Donora and Monongahela will be completed before the end of October. Since the strike of the steel workers began ten days ago the contractor has been able to secure many more laborers, resulting in extra shifts being put on the work.

Another good effect of prohibition is noticed on rainy d ays when you see men with umbrellas that never could keep them in the old days.

Lieutenant Ernest H. Ramsey, of Gastonia, North Carolina, is visiting Miss Pearl Hott.

MACHINE SHOP OF THE DONORA MILLS RESUMED THIS MORNING

CATERPILLARS FORECAST A MILD WINTER

An observant Unity township, Westmoreland county, farmer has declared that if the light stripes appearing on the backs of caterpillars as well as light coats of fur on the backs of fur-bearing animals can be relied upon as weather barometers Western Pennsylvania will have a mild winter. The several darker spots or rings on the caterpillar backs denote periods in which the mercury will drop. Dark brown rings near the caterpillar's head, he says, means an early cold snap and then a long spell of mild weather.

FOSTER DENOUNCED AS DANGEROUS ENEMY

Judge Joseph Buffington, of the United States Court of Appeals, in a session of Naturalization Court held in Philadelphia, on Tuesday. branded William Z. Foster, one of the leaders in the steel strike movement, as a "dangerous enemy" In a warning to prospective citizens Judge Buffington said:

"I have been all through the steel and other industrial establishments in the western part of the state, and I have found the foreign-born elements well paid for their work and contented and happy. But there is in my town (Pittsburg) a man, William Zebulon Foster, who is going among the foreign population teaching terrible doctrines of anarchy in his books; things that go to the destructon of the American government.

"Foster is the type of man who is causing all this unrest among the foreign-born. not only of this state, but of the country. I have known the habits and the desires of the foreign-born of this state too long to be deceived by the belief that they are responsible for the present unrest. The danger to American institutions is not in the foreign-born; it is the native born.

"This man Foster is a native-born citizen. He is a most dangerous leader and a dangerous enemy. I say this right from the shoulder, because it is my duty to do so."

ANNOUNCES MARRIAGE OF HER DAUGHTER

Mrs. Daniel O'Connell Lambert announces the marriage of her daughter, Mrs. Helen Lambert Molyneaux to Mr. Jay Winston Johns. of Pittsburg, which took place this morning at 6 o'clock, Rev. William D. Fries officiating. Mr. and Mrs. Johns will tour the south, and will be at home after December 15 at 573 Braddock avenue, Pittsburg.

If you never expect credit for the right things you do and always expect discredit for both the right and the wrong things, you can never be disappointed except agreeably. 100-t1-*

Expect Rod Mill to Begin Operations Thursday Morning

SOME MEN BEING DISCHARGED

The machine shop of the American Steel and Wire company at Donora resumed operations in full this morning, most of the workmen being Americans.

It is said it is the intention of the officials to start the rod mill in the morning, having secured assurances from a sufficient number of men to resume in that department at the time specified. There appears to be an almost unanimous sentiment among the American workmen of Donora against the continuation of the strike, and it is believed that practically all of them will return to work within a few days at the least.

The mill officials are returning to a number of former employes of the plant the money they had paid in on Liberty bonds, and the men were informed that their services would be no longer required. These men were mostly foreigners, and the attitude of the mill officials in this respect shows a more determined attitude towards a number of those who have been quite prominent in the agitation of a strike.

This morning many men returned to work, all of them carrying dinner pails, none of whom however were molested by any of the strikers. There were no evidences of picketing at any of the mill gates, and reports from there indicate that everything is very quiet and peaceful.

Visitors in Donora Tuesday night said that there was nothing to the strike in Duquesne or McKeesport, and that the mills in those towns were operating at normal capacity. They have all the men they want, and in some instances were reported as turning men away.

A series of resolutions adopted by the United Labor League with headquarters in Pittsburg, will be published in Donora today. These resolutions denounce Foster, who is the secretary of the strike movement, and ask all union members to "lay off" this strike.

There appeared to be a great deal more activity about the Donora mills this morning than at any time since the 22nd of September, the day the strike was inaugurated. The machine shop was brilliantly lighted. while other departments appeared to show more than the usual signs of activity.

If the rod mill is placed in operation tomorrow morning it is expected that other departments of the various plants will also resume as fast as the men report for duty.

A LESSON IN KHAKI

When the brass knob turned the old man at the desk didn't look up The door was softly closed and there was silence but for the scratching of a pen. The comer was probably one in reply to the advertisement in the paper, and the man at the desk feared to look up. He needed help badly otherwise he would not have been obliged to advertise for it, but since the time he had sent the office boy out with the message he had had a haunting fear that a man in uniform would answer the "ad." How could he face a man who had been at the front facing the worst of danger when he had played his hand for all it was worth and had been a stay-at-home under the industrial exemption clause? He dove into his desk file and fumbled the cards for fifteen or twenty minutes, then he went back to writing.

Patiently the stranger waited in calm silence for more than an hour. He hadn't shuffled his feet; he hadn't coughed; he hadn't even cleared his throat to call attention to the fact that he was there. Yet he had been absolutely ignored for more than an hour.

The clock ticked on its senseless course.

It was 11:30; two hours and a half had elapsed since the brass knob had turned.

The man at the desk made up his mind.

Without looking up at his visitor, he belted out the words:

"You're hired; how much do you want?"

Then he wheeled around in his chair and faced his visitor directly.

"Oh." he exclaimed; "I thought you were a service man."

"I am," came the reply. "Why did you hire me before you ever saw me; before you knew who I was?"

"Your patience told your story. Where did you get such angelic patience?"

"In the army. We waited days, weeks, months for orders to get us to the front. We waited days, weeks, months for orders to take us back home after the armistice was signed And all the time it just kept pounding patience into us, until we were satisfied that something would happen when it came time for it to happen. So, when I came into the room. I knew that you would speak to me when the time came. and it didn't matter to me whether it was a day or a week or a month."

WHAT THEY GOT

Winston Churchill. the British publicist, declares that as a result of the world war the British empire has reached the pinnacle of its greatness. In all the world's history no empire of such wide dominion has ever been erected. The British empire now holds sway over about one-third of the world's population. She is mistress of the seas, holds all the most valuable parts of Africa, controls Asia from the Mediterranean through Asia Minor. Persia. Central Asia and India to the island of Ceylon, owns Australia and adjacent islands and more than one-third of the area of North America. France with her new possessions, has an area larger than that of the United States and possessions, and is. despite war sacrifices. in a war higher position of wealth and power than since the days of Napoleon. Japan. dominating Korea and Manchuria. with the control of China guaranteed by the possession of Shantung, is in control of the western shores of the Pacific Thus it will be seen that in spite of the tremendous sacrifices made by Great Britain and France they have received in return by reason of the treaty at Versailles vastly larger possessions than they ever had before and which ultimately will make them even greater in the future than in the past Japan has strengthened her position in the Pacific, while the Shantung peninsula will give her an opportunity to exploit the people of that province for the benefit of the Japanese empire. The United States will get the privilege of looking after certain countries which are apparently unable to take care of themselves when will remove the presence of our army and navy at places far outside the United States.

A WARNING TO AMERICA

Mr. Lloyd George's warning to the British people is quite as much a warning to the American people in fact we are in greater need of such a key, for already there is evidence that the British have seen the dangers into which they were running, and which they have almost engulfed their fortunes, and are regaining self-control.

But we are moving head on and with increasing speed into exactly the disaster which the British people now foresee and seem sane enough to avoid. If we have any advantage it is because our descent has begun from a higher level of fortune. We are not so weakened by years of war and our reserves are greater than England's were when the armistice came. But on the other hand we have not yet realized the destructive possibilities of industrial disorganization and the paralyzing effects of widespread industrial disorder.

The vital necessity pointed out by the British prime minister of "vastly increased production." and curtailment of waste, is vital to us also. Yet we find universal and increasing extravagances and an industrial warfare which is diminishing producton in steadily increasing degree.

Legitimate demands of labor for bringing income into fair relation with necessary expense have now become a comparatively small phase of the labor conflict. The most exaggerated and irrational demands are made and are multiplying. The result can only be a disaster involving all classes. including first the wage earner. Nor only our ability to hold our own in the perilous wirld situation is being destroyed, but if the reign of unreason continues an internal collapse will occur such as the American people have never known

If American labor. the most prosperous in the world. and the most assured of steady progress. surrend itself now. for the first time in its history. to the hysteria of the time and to the incitements of radicalism bent upon the destruction of the American system. it is going about suicide in the most effective way.

We are not yet ready to believe American common sense and constructive instinct have been so shaken. We are confident reason and self-control will assert themselves. But it is high time for their return. Same and courageous leadership in the labor world is immedately called for. and back of it must be the intelligence of a rank and file wakened to the certainties of destruction toward which the present mood is sweeping the whole country—Chicago Tribune.

WHO PLEDGED US

President Wilson says that we have pledged ourselves to support the covenant of the league of nations and that therefore we must sign it or be caught in an act of perfidy.

Who pledged this nation? Who had the authority to say that the nation would accept the obligations which were conferred upon it at Paris?

By what process did the nation make known its intent to assume these responsibilities and take these risks? When and to whom did it declare that it would put its signature to the covenant? When did anybody with a mandate from the American people make a promise to any other nation or association of nations?

Who pledged this nation in such a fashion as to deprive it of the moral right to examine the covenant? Was President Wilson? It was, and as President Mr. Wilson derives his authority from a document which specifies that the United States Senate shall give advice and consent before the nation assumes any obligations under a treaty.

The nation is not pledged and Mr. Wilson knows it. Mr. Wilson particularly knows it because last year in the congressional election he asked for authority to speak for such authority as the re-election of a Democratic Congress might give him. and was denied it by the voters.

Mr. Wilson. who said he needed this vote of confidence in order to speak with assurance at Paris, did not get it, but is not now restrained from saying that he not only had such assurance but he had more than any election could give him, that he had authority to make a treaty which was morally beyond the power of the United States Senate to amend.

This is not only perversion of facts but it is perversion of the essence of our government.—Chicago Tribune.

A girl who is "a regular fellow," makes a big hit with the men but somehow they don't marry her And maybe she doesn't want them to.

A strike occasionally may be necessary but in these days the public has to be "shown"

THE IRON WORKER WAS VERY DIZZY

Plant Juice has been found to be most remarkable in that it is a nerve builder and system vitalizer, and so

IRA IRVING.

tones up the stomach that the nerve centers are properly fed with the nourishment they require to sustain them. To prove that these contentions are borne out by the facts it is only necessary to read the following signed testimonial of Mr. Ira Irving. who resides at No. 215 Kirkwood street, Carnegie, a structural iron worker by trade, who said:

"I had suffered from pains in my shoulders and arms and was told that I had stagnation of the blood and rheumatism. I was very nervous, and at times was unable to put on my coat. In the morning I was sick at my stomach and could eat no breakfast. I became so bad that I was unable to work, as I was so dizzy. I was afraid that I would fall from the tall buildings. One year ago I began taking Plant Juice, and it has cured my rheumatism and stomach trouble. I feel better in every way and I am now able to hold a responsible position at my trade. I give entire thanks to Plant Juice for my present good health."

Plant Juice is sold in Charleroi at Henning's Drug Store.

BENTLEYVILLE TEAM WILL BE IN FINALS

A meet on contests in first aid and mine rescue were held on Tuesday in Pittsburg, at Forbes Field. Teams from many states took part. The final contest is scheduled to take place today. Winning crews in each division will be awarded prizes offered by institutions in the work.

The rescue teams which won Tuesday and which will meet in the finals on Wednesday include: Hillman Coal & Coke company, Brownsville; Orient Central Rescue Station, Orient; Union Coal & Coke company, Bentleyville, and the Washington Coal & Coke company, Star Junction.

WESTMINSTER GUILD RESUMES ITS ACTIVITIES

The Westminster Guild of the Washington Avenue Presbyterian church met Tuesday evening at the home of the president, Miss Bess Richey on Prospect avenue. It being the first meeting since vacations ended there was a special program in keeping with the "New Era" plan for young people's societies.

Reports were heard from all communities which had charge of the social affairs through the summer.

The meeting was the fourteenth anniversary of the local Guild's organization. The topic for study was "The Home Mission Task," and the discussion was led by Miss Helen Fleming. Miss Belle Jeho gave a report of the Grove City Young People's Conference. Miss Jeho and Miss Bess Richey took three courses in social study while at the conference and their reports were very interesting. Four new members were received and several members were present. The social hour proved to be an interesting part of the evening, when each young lady received an engraved program of the new year, which begins October 1st.

A pessimist is one who fears to take pleasure for fear there's a morning after.

The world only requires of liars that their work be artistic.

NUXATED IRON

NUXATED IRON

"Say, Doctor, This Prescription Works Like Magic."

Physician Says Nuxated Iron Quickly Puts Astonishing Strength and Energy Into the Veins of Men and Brings Roses to the Cheeks of Nervous, Run-Down Women.

Ask the first hundred strong, healthy people you meet to what they owe their strength and see how many reply "Nuxated Iron." Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says: "Thousands of people suffer from iron deficiency but do not know what to take. There is nothing like organic iron—Nuxated Iron, to enrich the blood, make beautiful, healthy women, and strong, vigorous iron men. To make absolutely sure that my patients get real organic iron and not some form of the metallic variety, I always prescribe Nuxated Iron in its original packages. Nuxated Iron will increase the strength and endurance of weak, nervous, run-down folks in two weeks' time in many instances."

MANUFACTURERS' NOTE: Nuxated Iron recommended above by Dr. Sullivan can be obtained from any good druggist with or without a physician's prescription on an absolute manufacturers' guarantee of success or money refunded.

Sold in this city by Piper's Pharmacy and all good druggists.

An Established Custom

The system of banking by mail is not in the experimental stage.

It is, rather, an approved, perfected means of transacting financial affairs, and is characterized by extreme simplicity and ease of operation.

It will be to your decided advantage to learn of the efficiency of this Institution's banking by mail department.

Look! Here is the globe spread out flat before your eyes. See those stars? Every star shows where a U. S. Navy ship was on September 2nd, 1919. The Navy travels the Seven Seas.

Don't you want to see the World?

ROMANCE is calling to you! Strange and smiling foreign lands are beckoning to you. Shove off and see the world!

Learn to "parley-voo" in gay Paree. See the bull-fights in Panama. See surf-riding on the beach of Waikiki.

Learn the lure that comes with the swish and swirl of the good salt sea. Eat well—free; dress well—free; sleep clean—free; and look 'em all straight in the eye—British, French, Chinese, Japanese, Spaniards, Egyptians, Algerians and all manner of people.

Come! Be a *real* man of the world. See the world. See it with the red-blooded, hard-working, hard-playing men of the U. S. Navy.

Pay begins the day you join. On board ship a man is always learning. Trade schools develop skill, industry and business ability. Thirty days care-free holiday each year with full pay. The food is good. First uniform outfit is furnished free. Promotion is unlimited for men of brains. You can enlist for two years and come out broader, stronger and abler.

Shove off—Join the U. S. Navy. If you're between 17 and 35 go to the nearest recruiting station for all the details. If you don't know where it is ask your postmaster.

Shove off!-Join the U. S. Navy

THIS WEEK'S NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa. — "I was very weak, always tired, my back ached, and I felt dizzy most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2342 North Taylor St., Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

NOTICE TO MOTHERS

You can quickly heal baby's sore, chafed skin with
